CANADIAN SURTAX

IMPORTS FROM GERMANY

Have Decreased to a Very Great Extent Since the Imposition of the Surtax

Bulletin Special.

Ottawa, December 9.—The Canadian surtax of one fourth against Germany has hit the commerce with that country hard. The imports of dutiable goods from Germany in the first year of the surtax have been reduced from ten millions to a little over five millions. Last year Canada took one hundred and eighty million pounds of German sugar. This year it has taken none. The entire trade has gone to the British West Indies.

Nearing Canada

Halifax, December 9.—The Allan liner, Parisian, with Earl Grey, the Governor-General on board, was sighted off Cape Race, Newfoundland yesterday afternoon. It will probably arrive in Halifax today.

Civic Elections.

To The Electors of The City of Edmonton.

LADIES and GENTLEMEN:—

In presenting myself as a candidate at the forthcoming election as Alderman, I wish first of all to say that I belong to no party, clique or association, when seeking your suffrages as I think all such are detrimental to the best interests of any City.

I am a firm and strong supporter of Municipal Ownership of public utilities. It will be my constant endeavor if elected to bring about such a condition whenever the opportunity presents itself and I will also add that every condition which hitherto has been entered into by way of contract with the Street Railway will as far as I am concerned be something which will have to be adhered to in every particular.

My experience for the last 15 years in the West, viz. in Vancouver and Rossland, B. C. and Seattle and Spokane, Wash., enables me to say that I am fully conversant with the progress and development of these the most up to date and progressive cities west of Winnipeg and this experience I intend to use for the development of Edmonton if elected.

Edmonton offers the best investments of any city in the Dominion to-day and only requires capital to develop her resources.

SINGLE TAX—I am opposed at this time to the enforcement of the principal as being both unwise and unfair in my mind.

It will be impossible for me to call upon you all personally but by this address respectfully ask for your support and influence. I will be glad at any time to answer any questions regarding my views municipally.

Respectfully yours,

W. S. Weeks

To The Ratepayers of Edmonton.

As I am a Candidate for Alderman I ask YOUR VOTE AND INFLUENCE. I am for the interest of EDMONTON FIRST at all times. Against extension of time to Street Railway. I am in favor of Municipal Ownership whenever profitable, and in favor of giving the New System of Taxation (which is now compulsory for the coming year) a fair trial.

T. M. GRINDLEY.

Civic Elections

Your Vote and Influence for Alderman is respectfully requested for

CITY POLITICS

The attendance at the municipal election meeting on Wednesday night was a very satisfactory evidence of interest on the part of the ratepayers, but still, was scarcely as great as the importance of the question at issue would warrant. The attendance of candidates, and the frankness with which they stated their views, was also satisfactory, as far as it went, but it was still far from satisfactory. There seemed to be a lack of definiteness especially on the single tax issue. Some of the candidates accused others of not being acquainted with the facts or of not taking a stand on the question. But they did not confess to know more themselves, and did not take any more definite stand. All or almost all seemed to be willing to accept the principle of "try it on the dog," the dog in the case being the new city of Edmonton. J. R. Boyle made the only practical suggestion in this connection. That was, that when the first assessment under the new system was being made the opportunity should be taken to procure and place before the ratepayers the figures that would permit of a full and complete comparison between the old and the new systems. He went so far as to say—and most people will bear him out—that when such a radical change in the system of taxation was in contemplation, it was the part of the council introducing it to have had this comparison made and placed before the ratepayers for their consideration and approval before forcing on the new system. A system of taxation, the purpose of which is to exempt all buildings from taxation, is a sufficiently radical departure to require that in fairness, it shall not be adopted unless and until the ratepayers have had reasonable opportunity to understand and have definitely approved of it.

Regarding the street railway, there was a very satisfactory unanimity of expression against extending the time for completion under any circumstances. Nothing could be more definite than the expressions of the candidates on that point. And yet—and yet—it would have been more satisfactory if the candidates had given the reasons why they would not agree to another extension, rather than merely stating their intention. As the case stands, all have subscribed to precisely the same idea, namely, no further extension of time. So all stand on equal footing before the ratepayers on that matter. It goes without saying that the reasons are not the same in all cases. If the ratepayers knew the various reasons prompting each candidate they would be in a better position to make a choice in their support. Does the candidate oppose a renewal because he believes in municipal ownership of public utilities, and does not want to let one of the most important pass out of the hands of the city. Or does he object to the terms of the bargain. Or does he simply take the ground that a bargain made must be adhered to. Or does he declare against an extension because of the pressure of outside opinion, rather than because of his own judgment. It is important that the electors should know which of these reasons influence each candidate. For supposing the extension is not granted, and the company lose its forfeit money and its rights, acquired from the town, it still has existence and powers of more or less value altogether outside of the rights acquired from the town. It may be slightly disfigured, but will still be in the ring. As for of the councillors are to be elected for two years, and no one can now tell who will form the four, it stands in hand for the ratepayers who want the city to control its street railway when the proper time comes, to see that the men who stand for the permanent holding of the street railway by the city are elected to the council at the head of the poll. If the ratepayers have opinions on this point now is the time to sink lighter differences and vote for the protection of the city's interests in its valuable street railway franchise by voting for the men who can be depended on to stand for that principle through thick and thin. This is really the only issue before the electors. The taxation system must be tried for a year at least. It cannot be altered by the act of the council itself—only by the Legislature at Regina. But an agreement with the street railway company is the act of the council itself, and the circumstances being as they are, that question will certainly be up for consideration, possibly in many forms before the term of the aldermen elected on Monday next will have expired. On Monday the ratepayers have all to say. After that day they have nothing to say, for a year, at least. It is a case of "speak now or not at all."

Y. M. C. A. BUILDING FUND

The committee who have had in charge the canvassing of the young men of the city for subscriptions towards the erection of a Young Men's Christian Association building in Edmonton, have met with very great success. At the mass meeting of young men Sunday afternoon in Robertson Hall they agreed to endeavor to raise the sum of \$5000 towards the building fund. This morning \$4400 of this amount had been subscribed, and it is expected that by this evening more than the \$5000 will be subscribed.

The committee will have a very interesting report at the men's meeting in Robertson Hall this evening. A large attendance of the young men is urgently requested. Further action will be planned. Geo. Irving, Secretary of the Western Canada Y. M. C. A. committee will speak.

"My wife is great on souvenirs," said the man with the faraway look in his eyes. "A couple of weeks ago, as we were riding in the country, she called my attention to an oriole's nest hanging from the limb of a tree. She had wanted one for a long time, and here was the chance and I, of course, got out and secured it."
"Any eggs in it?" asked the fat man.
"No, no eggs."
"Any young birds?"
"No."
"Any old ones?"
"No."
"Just the nest, eh?"
"Just the nest and about a thousand wasps, and we were both in bed three days."—Chicago News.

Yes, talk over the question of the best food to give your baby with every one who can help you. Especially talk it over with your doctor. You may have been fortunate during the past summer, but you know of very many mothers who have had serious trouble with their children because the right food could not be found for them. You remember the experiments they made, the cost at a change from milk to one food or another, and the struggle and danger which it all meant.

We will send you, free of charge, a trial package of Nestlé's Food sufficient for eight meals.

The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 28, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres more or less.

ENTRY.—Entry may be made per the district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4, must or subdivide 20 head of stock, with buildings for their accommodation, cultivate 30 acres of his homestead, and have besides 80 acres substantiated.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

JAMES A. SMART,

Deputy Minister of the Interior.
N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

POLICE COURT

An interesting case came up before C. H. Stuart Wade, J.P., at the Mounted Police Barracks yesterday. It is an action for killing cattle against one Lyons. N. D. Beck is conducting the prosecution, and Rutherford Jamieson, of Strathearn, the defence.

The owner of the cattle in question, T. Meunier, was the first witness. He had a ranch on the Padgug river, about seventy-five miles from Edmonton. He had lived there for four years, and had ninety-two head of cattle. Twenty-eight of these were poisoned between January and May last and nine more on the 18th of October last. The accused, Lyons, had a camp about three miles from Meunier's ranch last winter. He had cut his hay from a slough about one and a half miles distant. He had moved part of this and fed it to the cattle, which were not affected by it. When he started to feed the balance of the hay, the cattle began to die. The accused passed his place usually twice a week, and was supposed to be hunting. Meunier left off feeding this hay to his cattle, and the deaths among them ceased. Upon beginning to feed the hay from this stack again, several more cows died. Meunier claimed that it was the hay from the bottom part of the stack that caused his cattle to die. He then fenced this stack, but on the 17th of October the cattle broke the fence. About the same time he found five large pieces of meat with cuts in them, in which he found poison. The next day he took Louis Velcourt with him. They saw Lyons, and Meunier accused him of having poisoned his cattle. Lyons only laughed, and said "You can't prove anything." Meunier found nearby the carcasses of a dog and several small animals.

Wm. Ramsay stated that Lyons had said, in a joking way, it appeared to him, that he only poisoned the poor cattle to keep them from starving to death.

John Donnelly stated that he was engaged to take Messrs. White and Wes. Green on a trip to the mountains. The accused had said to him "It is too bad you have no strychnine. I have only half a bottle left, that I will let you have." Eleven pairs were set out with this, in the mountains, but nothing was secured. On Donnelly's return he told Lyons that he thought that the poison was not good. He said that he had had it a long time, but that he and his partner, Will Brown, had some more that would do the business. Poisoned bait was then set at the bottom of Meunier's hay stack, and a coyote was killed within three feet of it.

J. W. McGillis stated that he had seen a dead dog lying near some meat about half a mile from Meunier's house. He noticed other pieces of meat close by.

Hugh McMillan was connected with a Grand Trunk Pacific survey party last winter. He met the accused and accused had told him that he had set out poison, and that he had killed a dog.

At this point the hearing of the case was adjourned until this morning at ten o'clock.

GAS STRUCK

There was something doing at the site of the boring operations of the North West Gas and Oil Company, on the Ross flats near the Exhibition grounds, Edmonton, last night. Work has been proceeding rapidly when suddenly the drillers struck a very considerable flow of gas. Heretofore small pockets of marsh gas have been struck but this is the genuine article of great commercial value.

About ten-thirty o'clock work was progressing in the usual way when a large flow of gas suddenly stopped operations. The gas was lighted and burned freely with a flame eight or ten feet long issuing from the hole. The illuminating properties and the color of the flame were of the best. The gas has continued to flow steadily since it was struck last night until the present, it being "somewhat stronger this morning."

This may be a large pocket of gas, formed from leakage from beneath or forced upwards by an exceedingly strong pressure of gas from beneath. The well is now being sunk through a slate formation, which, of course, is not the formation in which a large quantity of gas is likely to be found. The flow of gas while insufficient for commercial purposes, is a very strong and alluring indication of what is probably awaiting the further sinking of the gas well. The depth now attained is about 800 feet or 1000 feet below the city proper.

Montreal Suicide

—Montreal, December 7.—The long list of suicides that have occurred in this city in the past few months received an addition to-day, when Augustus Meuschel, Superintendent of the McCord street sub-station of the Montreal Light, Heat and Power Co., shot himself. Meuschel was found lying dead in a small office on the top floor, with a revolver still in his hand. The General Hospital ambulance was at once summoned but the doctor on examination of the body stated that he had been dead some minutes. No one else worked on the top floor and it was only when enquiries for the deceased had been made by telephone that the search of the premises was made. He was about 45 years old.

bushel is paid for potatoes, and the
demand is good.

piece. Ducks bring 10 cents a pound.
Geese, 12 cents a pound, and turkey
twelve and a half cents. The mar-
ket is kept well supplied.

Pork—Four cents a pound is the
top price paid for hogs to-day. The
price recently dropped from four and
three-quarters to four and a half,
and the first of this week dropped
another quarter of a cent.

Beef—Cattle are bought mostly by
the head.

Mutton—Sheep bring four and a
quarter cents a pound.

Hay—The market is kept well
supplied, prices ranging from five
to eight dollars a ton. Green feed
brings from five to six dollars a
ton.

Oats—Oat prices are firmer, with
light deliveries. The price ranges
from twenty-one to twenty-five cents
a bushel.

The top price still remains at 85
cents a bushel.

Barley—Prices paid for barley
range from twenty-four cents for
feed, to thirty-five cents for good
malting barley.

The Winnipeg Wheat Market

Commercial, December 3:
Wheat—In our local market the
trade in Manitoba wheat has for the
most part been quiet and dull. In
every season previous to this there
has been an urgent demand at the

close of navigation for spot wheat at
Fort William and Port Arthur in or-
der to fill all available vessel space
and get as much wheat as possible
away eastward by the cheaper water
route before lake ports were frozen
up. This year, however, there is
nothing of the kind. In the first
export business has been so inactive
that shippers have been half idle
ever since crop movement began,
and in the second place the favorable
weather in the west during the past
two months and the better equip-
ment of the railways for carrying
out the wheat has resulted in huge
stocks being available at lake ports
for vessels if the price was made high
enough to tempt holders to sell. The
close of navigation, therefore, which
takes place definitely on December 5,
sees the lake ports with the largest
quantity of wheat on record in store
at this date.

Trade is now down to the basis of
December delivery and wheat at lake
ports is arriving there now has to be
handled on the basis of its remaining
in store there all winter or being ship-
ped eastward all rail at considerably
higher freight than by lake route.
Within the past week winter weather
has set in over the western country
and already the movement has fallen
off sharply. Our prices for spot or
cash wheat have of course declined to
meet the difference in freight condi-
tions caused by the closing of naviga-
tion, but prices for future delivery
hold up and in the last two days
show some advance over immediately
previous quotations, and trading in
May wheat has been fairly active
with more buyers than sellers.

To-day's quotations are as follows:
1 northern, 93 1-4c; 2 northern, 88
1-2c; 3 northern, 81 1-4c; No. 4 extra,
70 1-2c; No. 4 wheat, 59 1-4c; No. 5
wheat, 57 1-2c; feed wheat, 59 1-2c;
No. 2 feed, 47 1-4c, spot or December
delivery, and on the option market
December wheat closed 91 1-2c; May
91 1-2c; July, 98 1-2c; all prices being
on the basis of in store Port William
and Port Arthur.

This is an evidence of the extra weight of Edmonton oats. The oats sold for 21 cents.
